Part II – Control of import and export

4. Importation of pest prohibited

A person shall not import a pest.

5. Control of import of plant material etc.

- (1) A person shall not import a plant material or beneficial organism, soil or an associated packaging—
 - (a) except under and in accordance with a permit issued by the Director;
 - (b) except through a designated point of entry; and
 - (c) unless the plant material, beneficial organism, soil or associated packaging is accompanied by a phytosanitary certificate issued by the plant protection authority of the country from where the plant material, beneficial organism, soil or associated packaging shall packaging has been exported.
- (2) A person who imports a plant material, beneficial organism, soil or associated at the time the plant material, beneficial organism, soil or associated packaging enters Seychelles—
 - (a) make a declaration to this effect;
 - (b) produce the permit and phytosanitary certificate referred to in subsection (1) in respect of the plant material, beneficial organism, soil and associated packaging;
 - (c) produce the plant material, beneficial organism, soil or associated packaging, to the inspector or, where an inspector is not present, the trade tax officer or other authorised officer at the designated point of entry at which entry into Seychelles takes place.
- (3) An officer of the public authority responsible for trades tax on imports or the public authority responsible for providing postal services or a police officer shall immediately—
 - (a) upon a person making a declaration or producing a permit, certificate or plant material, beneficial organism, soil or associated packaging under subsection (2);
 - (b) upon discovering or becoming aware that a person is entering Seychelles with a plant material or beneficial organism, soil or an associated packaging while not in possession of a permit or phytosanitary certificate as required by subsection (1),
inform an inspector of the presence of the plant material, beneficial organism, soil and associated packaging and shall assist the inspector in ensuring compliance with this Act.
- (4) Notwithstanding any other written law, a person shall not remove a plant material or beneficial organism, soil or an associated packaging which is the subject of an inspection under this section, whether or not there is in its respect a permit and phytosanitary certificate, without the approval of an inspector.
- (5) An inspector may, when authorised by the Director and notwithstanding that there is in its respect a permit or phytosanitary certificate, require that a propagative material which is being imported be grown in a quarantine station before it may be released to the importer.

- (6) An inspector may require a person who has been permitted to import a plant material, beneficial organism, soil or associated packaging, notwithstanding that there is a permit or phytosanitary certificate in its respect, to make available for inspection at all reasonable times within a reasonable period after allowing the entry of the plant material, beneficial organism, soil or associated packaging.
- (7) The Director may grant a permit subject to such reasonable conditions which are consistent with the purpose of this Act.

6. Control of export

- (1) The Director may issue a phytosanitary certificate in respect of a plant material or beneficial organism, soil or an associated packaging for export.
- (2) A phytosanitary certificate shall be in the form specified in Schedule 2.
- (3) The Director may establish the procedure for the purpose of subsection (1).

Part III – Containment and eradication of pests

7. Notification of quarantine pest

- (1) The Minister may by notice in the *Gazette* declare any form of plant or animal life or a pathogenic agent which is not otherwise specified in Schedule 1 to be a pest for the purposes of this Part.
- (2) For the purposes of this Part—

"pest" means a pest specified in Schedule 1 or any other form of plant or animal life or pathogenic agent which the Minister has declared to be a pest by a notice under subsection (1);

"quarantine pest" means a pest declared as a quarantine pest under subsection (3).
- (3) The Minister may, by notice published in the *Gazette*, declare a pest which represents a threat to the agricultural or forestry resources or the ecological environment of Seychelles to be a quarantine pest.
- (4) The owner or occupier of any land who knows or suspects the presence of a quarantine pest on the land shall as soon as practicable after so knowing or suspecting advise the Director of the presence or suspected presence of the quarantine pest on the land.

8. Notification of infected area

- (1) The Minister may, by notice published in the *Gazette*, declare any place in Seychelles to be infected or suspected of being infected with a quarantine pest to be an infected area.
- (2) A notice under subsection (1) may, for the purposes of containing the spread of the quarantine pest—
 - (a) prescribe the measures for the treatment or disposal or both treatment and disposal of a plant material, soil or associated packaging, whether infected or not, found in the infected area or of a conveyance which has or suspected to have come into contact with the quarantine pest or a plant material, soil or associated packaging which has been affected or suspected of having been affected by a quarantine pest;
 - (b) prohibit, restrict or otherwise specify measures for controlling the removal of a quarantine pest or a plant material, soil or associated packaging from an infected area;
 - (c) provide that, within a period specified in the notice, any plant specified in the notice or propagative material of that plant, shall not be planted in an infected area or place which was declared an infected area.

9. Measures of quarantine

- (1) Where the Minister has published a notice under [section 7](#) and the Director is satisfied on reasonable ground that there is a quarantine pest affecting a plant on the soil of any land, the Director, may, by notice served on the owner or occupier of the land and any adjoining land, order the owner or occupier or both owner and occupier of the land to perform, within the time specified in the notice, such treatment and carry out such measures on the land or adjoining land or in respect of any plant, whether it is infested or not by a quarantine pest, for the purpose of eliminating, containing or preventing the spread of a quarantine pest.
- (2) Where under subsection (1) the Director does not know the identity of the owner or occupier of any land or the land is otherwise not occupied by any person, the Director may affix the notice in a conspicuous place on the land and the notice shall be deemed to have been served on the owner and occupier of the land for the purposes of the subsection.
- (3) Where an owner or occupier of land on whom notice has been or deemed to have been served under this section fails to comply with the requirement of the notice, the Director may enter upon the land and perform the treatment and carry out the measures together with such other measures as are reasonably necessary for the purpose of complying with the notice.
- (4) The owner or occupier or both the owner and the occupier of the land referred to in subsection (3) shall, in addition to any other penalty under this Act, be liable for all reasonable expenses incurred by the Director under the subsection and the amount so incurred may be recovered from the owner or occupier or both owner and occupier as a debt due to the Republic.

Part IV – Administration and enforcement

10. Powers of an inspector and authorised officer

- (1) An inspector may, for the purpose of ensuring compliance with this Act—
 - (a) require a person to produce for the purposes of paragraph (e) any plant material, pest, beneficial organism, soil or associated packaging;
 - (b) without a warrant, search a person, baggage, parcel, package or conveyance where the inspector has reasonable ground for believing that this Act is not being complied with;
 - (c) require a person to produce in respect of a plant material, pest, beneficial organism, soil or associated packaging a permit, certificate, authorisation or other document required under this Act;
 - (d) without a warrant, enter and inspect any land, building or other premises where the inspector has reasonable ground for believing that this Act is not being complied with;
 - (e) whether or not there is in its respect a permit or phytosanitary certificate, inspect, examine, analyse or take sample for the purpose of carrying out a further examination or analysis of a plant material, pest, beneficial organism, soil or associated packaging imported or which a person is seeking to import;
 - (f) where the inspector has reasonable ground for believing that this Act is not being complied with, without a warrant, seize a plant material, pest, beneficial organism, soil or associated packaging, stop and detain and seize a conveyance which the inspector reasonably believes is carrying a plant material, pest, beneficial organism, soil or associated packaging;
 - (g) destroy any pest, plant material, beneficial organism, soil or associated packaging imported in contravention of this Act or require a person who has imported or has custody or control of a pest, plant material, beneficial organism, soil or associated packaging which has been imported contrary to this Act to destroy the pest, plant material, beneficial organism, soil or associated packaging.

- (2) An inspector shall at the time of exercising or as soon as practicable thereafter any of the powers under subsection (1) advise the relevant person of the reasons for the exercise of the power.
- (3) An authorised officer shall have the power of an inspector set out in subsection (1)(f).

11. Removal from quarantine station prohibited

A person shall not, unless authorised by the Director, remove a plant material, pest, soil, beneficial organism or associated packaging from a quarantine station.
